

### REMARKS

The original Sequence Listing has been replaced with a Substitute Sequence Listing, which corrects minor typographical errors in the original Sequence Listing.

Specifically, in the first line <150>, application number "09/066,352" has been changed to "09/006,352" in order to correctly identify the application of which we claim priority. This application number is correctly identified on page 1 line 2 of the specification.

SEQ ID NO:17, which corresponds to the HELDI06R sequence shown in Figure 6, contained three errors. The following corrections have been made to SEQ ID NO:17 of the sequence listing: a "g" was inserted between nucleotides 96 and 97; a "c" was inserted between nucleotides 218 and 219; and the "c" at nucleotide 322 was changed to a "g". Each of these changes is supported by Figure 6 of the specification. The insertion of the "g" nucleotide between nucleotides 96 and 97 and the insertion of the "c" between nucleotides 218 and 219, changed the locations of the "n" nucleotides. Accordingly, feature location positions (159)..(160), (163), (180), (204), (206), (211), (229), (246), (275), (320), (328), (351), (370), (376), (389), (392), (400), (405), (419), (435)..(436), (444), (458), (464), (472), (480)..(482), (484), and (494), have been changed to (160)..(161), (164), (181), (205), (207), (212), (231), (248), (277), (322), (330), (353), (372), (378), (391), (394), (402), (407), (421), (437)..(438), (446), (460), (466), (474), (482)..(484), (486), and (496).
